

# ed - 100

## what?

ED-100 course offered by the IES LA - a fundamental lighting design course beginning April '09 appropriate for architects, interior designers, junior or mid-level lighting designers, electrical engineers, electrical contractors or distributors and students who have a basic background in lighting technology basics

Class cost is only \$250 per person, which includes the IESNA ED-100 course book (an excellent desktop reference book).

## why?

Earn 20 AIA learning units with HSW credit + 20 IESNA Continuing Education Credits!

***registration closes on march 13 '09 so hurry!***

## class?

Light & Color, Vision & Perception, Light Sources, Luminaires & Photometric Data, Lighting Calculations, Visual Performance, Visual Impact, Exterior Environments, Energy Management & Economics and Daylighting

## where?

GAM products showroom

4975 W Pico Blvd. Los Angeles, CA, 90019

Classes start **Wednesday, April 1st from 6pm -10pm** and will occur **each Wednesday from 6:30-8:30pm**, ending on June 3rd.

There will be no class on May 6th because of Light Fair.

## who?
